

INDUSTRIAL MAINTENANCE AND SERVICE SOLUTIONS

We respond and resolve critical complex scenarios with efficiency and value-added knowledge that minimize operational downtime and costs.

COMPANY PROFILE

THE MID-STATE MISSION

Founded in 1973, Mid-State provides design, fabrication, and installation services to the agriculture, energy, and heavy industrial markets throughout North America and the Caribbean. We respond and resolve critical complex scenarios with efficiency and value-added knowledge that minimize operational downtime and costs. Our dedicated and competent team of professionals is committed to a culture of safety that permeates every aspect of our mission. Our goal is to deliver high quality, timely maintenance services in the most demanding environments so our clients can operate their businesses and grow.

- **Established 1973**
- **42 Acre Site & 180,000 sq. ft. Facility in Lakeland, FL**
- **1,000+ Shop / Field Employees**
- **Diverse Contractor Organization Active in Phosphates, Power Generation, Pulp & Paper, Aggregates, Cement, and Building Materials**
- **Growing portfolio of affiliate companies under the Mid-State umbrella**

A MID-STATE company. / 

ACQUISITION

The acquisition of SMS, MED, Elmco, Precision Electric, and GRL Electric contributes towards our vision of directly providing our customers with the best solution based industrial services available. With the combination of these four great companies, it marks an important milestone for Mid-State as we will have a broader geographic reach for customers.

SAFETY AS A CORE VALUE

**IF WE
CAN'T
DO IT
SAFELY
THEN WE
JUST WON'T
DO IT.**

Safety as a value begins with a core belief that nothing is more important than safety, and nothing is ever worth taking the risk.

As a contractor, our people really are our biggest asset, and ensuring they can return home safely to their families everyday is our top priority.

At Mid-State, we take pride in having an ISNetworld “A” Safety rating and an EMR rating of 0.49.

Our commitment to safety shows in our support from top to bottom throughout the organization:

- 8 full time safety professionals on staff with 152 combined years safety experience
- 4 MSHA Part 48 certified instructors
- At least 1 CPR/First Aid person per field crew

20,000

SQUARE FOOT COMPLEX LOCATED ON FIVE ACRES

600+

 FULL TIME FIELD EMPLOYEES

General Industrial Construction, Industrial Plant Maintenance, Industrial Concrete, and Electrical Services

- ASME Code Stamps  ASME Authorized Repair and Manufacturing
- QA / QC
- Certified Electrical Service Experts

- Certified Pipe Welders
- Certified Millwrights
- Laser Alignment Services

MACHINE SHOP

52 YEARS OF SERVICE
Our Machine Shop was established in 1973.

25,000 SQUARE FOOT IN-HOUSE FACILITY

30 FULL TIME SHOP EMPLOYEES

All of our building is done in-house and is meticulously handled by an expert team of experienced machinist.

- Betts Vertical Boring Mill (2)
Table Size 104" - 192" and 80"-198" Under Rail
- G&L Horizontal Boring Mill
80" Vertical Height Capacity 204" Table Travel

- Mesta Lathe 134" Swing and 672" Between Centers
- American Lathe 48" Swing and 372" Between Centers

FABRICATION SHOP

40 YEARS
OF SERVICE
Our Fabrication Shop was established in 1985.

100,000
SQUARE FOOT
IN-HOUSE FACILITY

250 FULL TIME
SHOP
EMPLOYEES

MS
MID-STATE
INDUSTRIAL MAINTENANCE

40-ton Overhead Crain Systems, Sandblast and Painting Facility, Submerged Arc Welding Systems, Plasma and Oxygen-Acetylene cutting.

- CNC Burn Table Table Size 12' x 40'
- Break Press 550 Ton & 750 Ton
- Roll Plate 2" x 12'
- Pipe Fabrication
- Overhead Cranes (10)
Up to 30 Ton Capacity
- Sub-Arc Welders 600 amp & 1,000 amp
- 300+ Yard Long Fabrication Shop with High Bay
- CNC Press Brake 300 ton
- CNC Pipe Cutting and Processing 1.5-36" diameter, 40' long
- CNC Tube Plasma 6" tube, beam, channel,
and angle cutting and coping, 24' long

MECHANICAL SHOP

BOILERS

30 + YEARS
OF SERVICE

- Boiler Construction
- Heat Recovery Steam Generators
- Boiler Overhaul
- Pressure Vessel, Piping,
Component Repairs/Upgrades

■ Boiler Component Replacement

- Vast experience in the replacement of boiler internal components - Superheaters, Reheaters, Economizers, Headers and Water Walls.
- Immense library with a multitude of welding procedures (WPS) and processes to ensure that the quality of supercritical pressure part welds is specific to materials of the replacement components

■ Process Piping

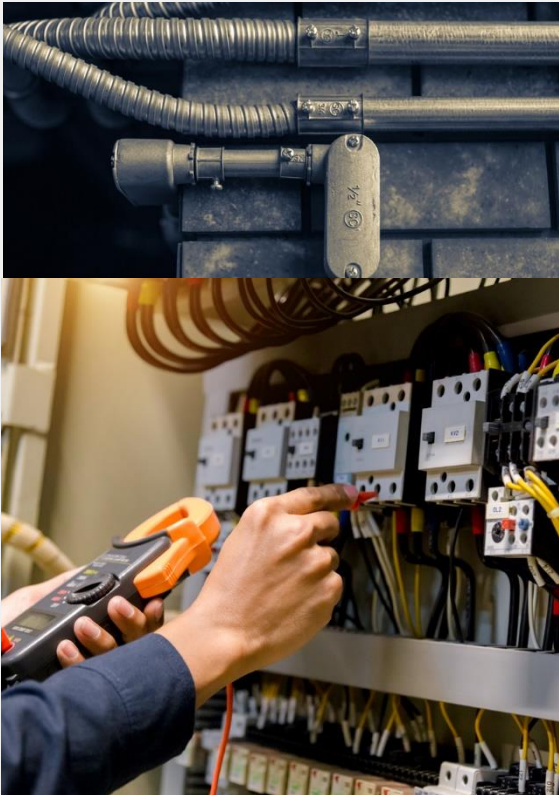

- SMS has the knowledge and capabilities to handle all your process piping needs, whether you need a main steam stop valve replacement, steam lines replacement, coal pipe or feedwater line, SMS can handle the task. We have experience in high energy piping alloys, SS alloy, Inconel, Sper Duplex, and carbon steels.

■ Balance of Plant (BOP)

- SMS employs a highly trained work force to assist in any of your BOP needs. This includes major rebuild of pulverizers, ball mills and soot blowers. We also have expertise in precipitator repairs, ash handling systems repairs, material handling repair and maintenance.
- SMS has seasoned millwrights for rotating equipment repairs and replacement.
- Coupled with our Pump and Gearbox repair shop, we have additional resources to limit down time for your critical system repairs.

ELECTRICAL SERVICES

15 + YEARS
OF SERVICE

- **Switchgear & Motor Control Center (MCC)**
 - New Switchgear/MCC Install
 - Switchgear/MCC Maintenance
 - Switchgear/MCC Change Outs
- **Motors**
 - Change Outs
 - New Installs
- **Conduit**
 - Bending/Installing of All Conduits Types and Sizes
- **Cable Tray**
 - Installation
 - Repair
 - Covering
- **Cable/Wire Pulls**

- **Instrumentation**
- **Fire Alarm Systems**
- **Welding/Fabrication & Install**
- **Underground Installation**
- **Duct Bank/Trim Way Installation**
- **High Voltage Cable Terminations**

COST SAVING EFFORTS

**AT MID-STATE,
WE RESPOND
AND RESOLVE
CRITICAL COMPLEX
SCENARIOS WITH**

**EFFICIENCY AND
VALUE-ADDED
KNOWLEDGE**

**THAT MINIMIZE
OPERATIONAL
DOWNTIME
AND COSTS.**

- Reduced total cost of ownership using our demonstrated team of highly competent in-house experts
 - We strive on continuously improving our operations and the quality of our work
- Collaborative working relationship between Mid-State and Subject Matter Experts leading to:
 - Reduced downtime
 - Increased equipment life
 - Minimized repair costs
- Using Mid-State as your mechanical services provider will lead to increased net operating hours (reliability) and reduced scheduled down hours through better planning and staffing on outages.
- Local firm with competitive rates

RELIABLE / TURNKEY / SEAMLESS

Mid-State is the *only* Mechanical Services Contractor that has the in-house, *proven* capability to seamlessly and reliably meet or exceed all aspects of the operations required to support your business as a maintenance contractor.

PROVEN

- *Proven* 50+ year history of performing all of the necessary work required – all as a turnkey provider
- *Proven* ability to respond in emergencies – 24 hours a day, 7 days a week
- *Proven* capability to deliver high quality work in any environment, regardless of the situation
- *Proven* that safety is our highest value
- *Proven* internal support systems that deliver results and add value
- *Proven* dependability to get the job done – regardless of cost to us or complexity of the situation

It's in our name. It's what we do.
